

Wastewater treatment plant in Studios 'Mochlos' Sitia, Crete

Owner	Mr. Petrakis
Capacity	30 beds
Flow	8 m³/d
System	2 AX – 20
Reusults	BOD5=8-12, S.S. 5-10 ppm

A beautiful installation that has been embanked in space with flowers. It is a example of installation that shows how a plant can fit in the environment. It includes septic tank as well as two units AX-20., Electric panel with telemetry and compost biofilter.
