

Studios 'Zlatoudis', Skiathos

In the green all around and very beautiful island of Skiathos and few hardly meters from the sea, are found the rented apartments of property Mr.Zlatoydis. The householder has created a environment very friendly, beautiful, ideal for interruptions and rest. The apartments have capacity of 35 beds while there is also a restaurant.

The problem that faced the householder was the frequent visit of tanker for the removal of sewages that on one side was very costly and particularly annoying for the customers and the neighboring enterprises.

The solution system AdvanTex® was selected mostly because of its small dimensions and natural odorless soundless treatment.
